PERFORMANCE - N2 (EN 1317)

Test code	Impact Speed	Vehicle Mass	Working Width (W)	Normalised Vehicle Intrusion (VI)	ASI
TB 11	100 km/hr	900 kg	W1	-	В
TB 32	110 km/hr	1500 kg	W2	VI1	В

- The OBEX Line aluminium parapet range is available in **tested** & **CE certified** configurations as follows:
- \Rightarrow N1AW1 1.0m high 3 rail
- \Rightarrow N2BW2 1.0m high 3 rail
- \Rightarrow N2BW2 1.25m high 4 rail
- ⇒ H2BW4 1.25m high 4 rail
- Selection of approved transitions to complement N1 to H2 design requirements.
- All containment options are **available with increased heights** to facilitate additional pedestrian protection, cycleway and bridleway applications.
- Standard components are used throughout all containment levels allowing for **efficient stock management, repair and upgrade** in containment level if required.
- Aluminium Alloy type 6082 T6 is used throughout together with stainless steel fixings and anchors.
- Excellent corrosion resistance, maintenance free and lower whole life costs.
- **Minimal load transfer** to the bridge deck on impact allowing for efficient plinth design and flexibility for upgrading works on existing decks.
- Sector Scheme 5B approved production.
- Lantra approved installation training available.
